

Tins and plastics for snus

Perfectly safe customizable tins or plastics for all your snus products!

Why choose tin packaging for your tobacco products?

- protection while staying lightweight
- we create beautiful tins and cans
- permanently recyclable (market recyclability rate 93% for tins)
- high durability also for plastics
- can be reused & refilled
- we have a long history in SNUS packaging
- keeps its shape
- fully customizable finish

We've got many years of experience in the development and production of new packaging for the snus industry. In collaboration with our customers we developed various innovative and high quality snus packaging, from idea to actual products. Whether you are looking for plastic or tin boxes, we offer the best protection for your Snus products!

Tailor made for you

Once we were requested to develop a new plastic packaging for snus tobacco. A distinguished packaging, which also demanded a large weight reduction, without losing on sturdiness. We developed various concepts for this project, of which the final design has been developed and manufactured in our production facilities.
